

ColorTile Highlights

Stone Look

A modern outdoor terrace with a swimming pool, lounge furniture, and a view of a golf course and trees. The terrace is paved with light-colored stone tiles. On the left, there is a brown sofa with blue and grey cushions and a round wooden coffee table. In the center, there is a white armchair. On the right, there is a lounge chair with a white cushion. A swimming pool is visible on the right side of the terrace. In the background, there are several trees and a golf course under a blue sky with clouds.

Where style comes to life™

About ColorTile

For more than 30 years, ColorTile has been helping Australians create beautiful spaces with carefully curated wall and floor tile collections, exceptional service, and expert design advice. With showrooms located throughout New South Wales, we make it easy for homeowners, builders, designers and renovators to access the latest tile trends, timeless classics, and practical solutions for every project.

Each showroom is home to experienced Design Consultants who are passionate about helping our clients bring their vision and style to life. Whether you're building, renovating, or simply refreshing a space, our team is there to guide you through every step of the selection process, making what can feel overwhelming both enjoyable and inspiring.

Our showrooms are designed as Style Playgrounds — places where styles comes to life. From mood boards and colour palettes to tile layouts and finishes, we help our customers confidently create spaces that reflect their style.

We proudly support builders, designers, developers and homeowners across New South Wales, combining local expertise with the buying power and product selection of a trusted national brand.

At ColorTile, we believe great products deserve great service. That's why we're committed to delivering not only outstanding tiles, but also a memorable shopping experience.

Technical Information

V-Rating

The V Rating indicates the amount of variation you can expect between individual tiles within the same collection. This helps create either a more uniform appearance or a more natural, organic look.

- **V1 - Uniform Appearance** - Tiles have very little variation from piece to piece. This creates a clean, consistent look and is often preferred in contemporary or minimalist designs.
- **V2 - Slight Variation** - Tiles feature minor differences in shade and pattern while maintaining an overall consistent appearance.
- **V3 - Moderate Variation** - Noticeable differences in colour, pattern and texture occur between tiles, creating a more natural and visually interesting installation.
- **V4 - Substantial Variation** - Each tile can vary significantly in colour, pattern and movement. When installed, the result closely resembles natural stone, timber or handmade materials, delivering a unique and highly individual look.

If choosing a V3 to V4, it is important that you refer to the catalogue to understand what you should expect and/or consider asking for more samples.

Shade variation is based on production run. Some tiles look the same when they belong to the same production run, but different when they have been produced in different runs. The changes relate to slight temperature or colouring changes. **RECOMMENDATIONS** - Once delivered, check the tiles in all cartons to see if they are the same colour. Also check the code numbers of the boxes to see if they are from the same batch.

P-Rating

The P Rating measures a tile's slip resistance underfoot and is determined by testing the tile in wet conditions. The higher the rating, the greater the slip resistance.

- **P0 - Not classified**
- **P1 - Very low slip resistance**
- **P2 - Dry internal areas**
- **P3 - General residential interiors**
- **P4 - Areas exposed to occasional moisture**
- **P5 - High-slip-risk environments**

P Rating Notice

Lappato, Honed, Polished and Satin finishes are not P-tested and therefore do not have a P Rating. As a result, no P Rating is shown for these products in this catalogue. Where slip resistance is a project requirement, please contact your local ColorTile store for further guidance.

Rectified Tile (R/T)

R/T denotes a rectified tile, meaning the edges have been precisely machined after firing to create consistent sizing and sharp, square edges. This allows for tighter grout joints and a cleaner, more refined finish.

Products that do not display R/T feature a **non-rectified edge detail** and will require a larger grout joint as the Australian Standards **AS 3958**.
