

Krema

Discover the perfect blend of organic surface texture and soft white in our Krema line. Because of its flexible size and light-reflecting white colour, it has a wide range of possible uses. The inclusion of the 62.5x125mm brick format in cotton colour (white) and the broad and flexible 125x125mm square shape give the product an aura of classic, hand-crafted, unique, and timeless quality. The 18 different faces further enhance this impression. Their many complementing tones and uneven texture have made this series famous. The contrasting sheens and mattes of the Krema line look well in a variety of settings, including kitchens, bathrooms, patios, and outdoor areas. The passive tones will nevertheless provide a dramatic impression, even in smaller spaces like kitchen backsplashes or fireplace surrounds.
